

# BUSINESS CONTINUITY PLAN REQUIREMENTS

**Business Continuity Management Office**  
Office of Risk Management, Office of Business and Finance

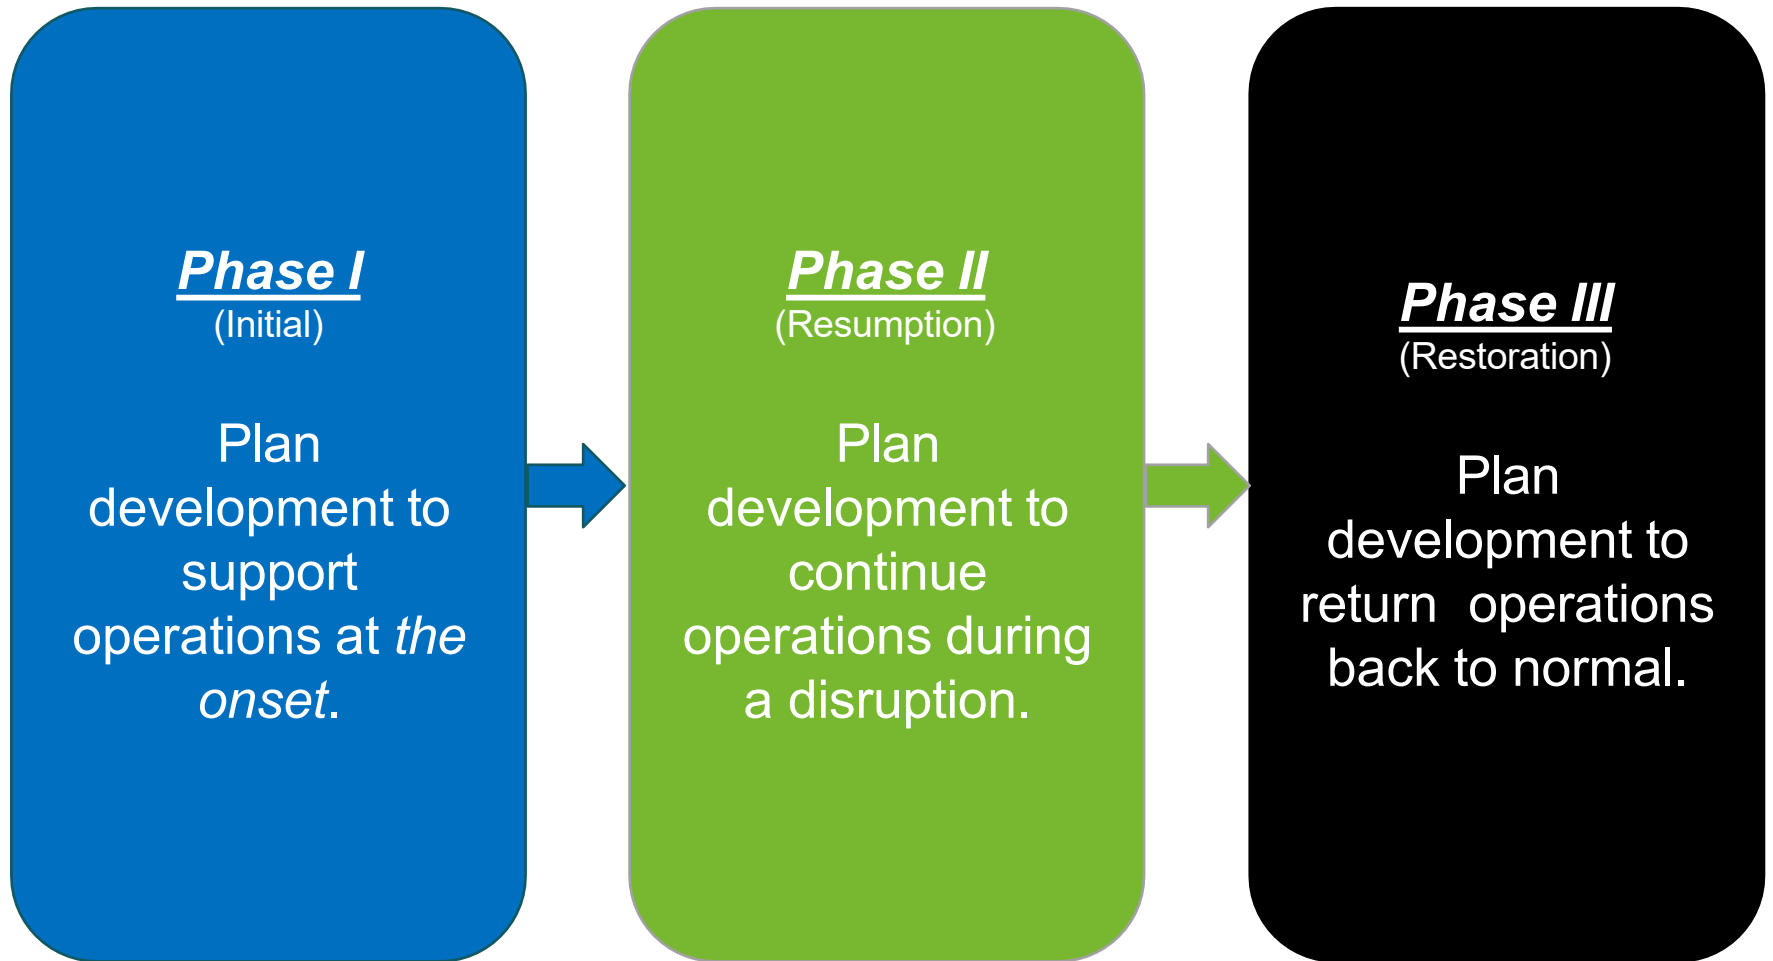

**THE OHIO STATE UNIVERSITY**

# Benefits of a BCP

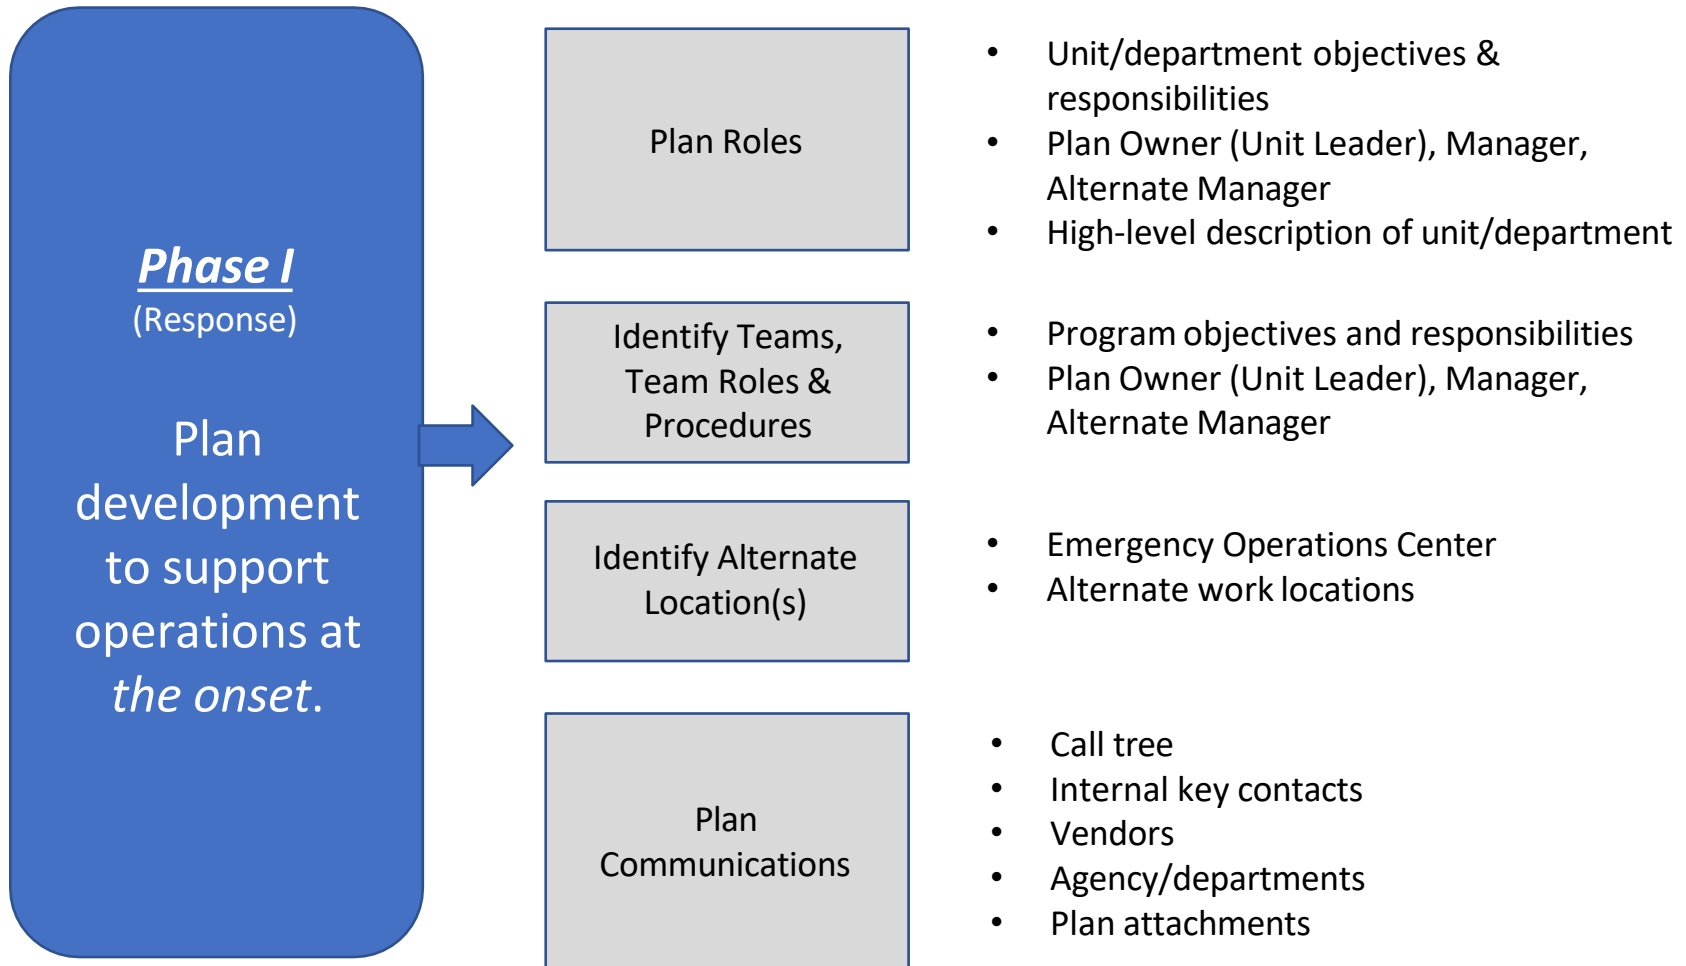

1. Enhances the university's ability to recover and resume academic and business operations.
2. Provides a comprehensive view of risks and impacts thus helping to prioritize activities and optimize resource allocation.
3. Reassures university stakeholders that critical processes will be supported in adverse conditions.
4. Improves the university's chances of survival in the event of a catastrophe.
5. Protects the university's resources and image.

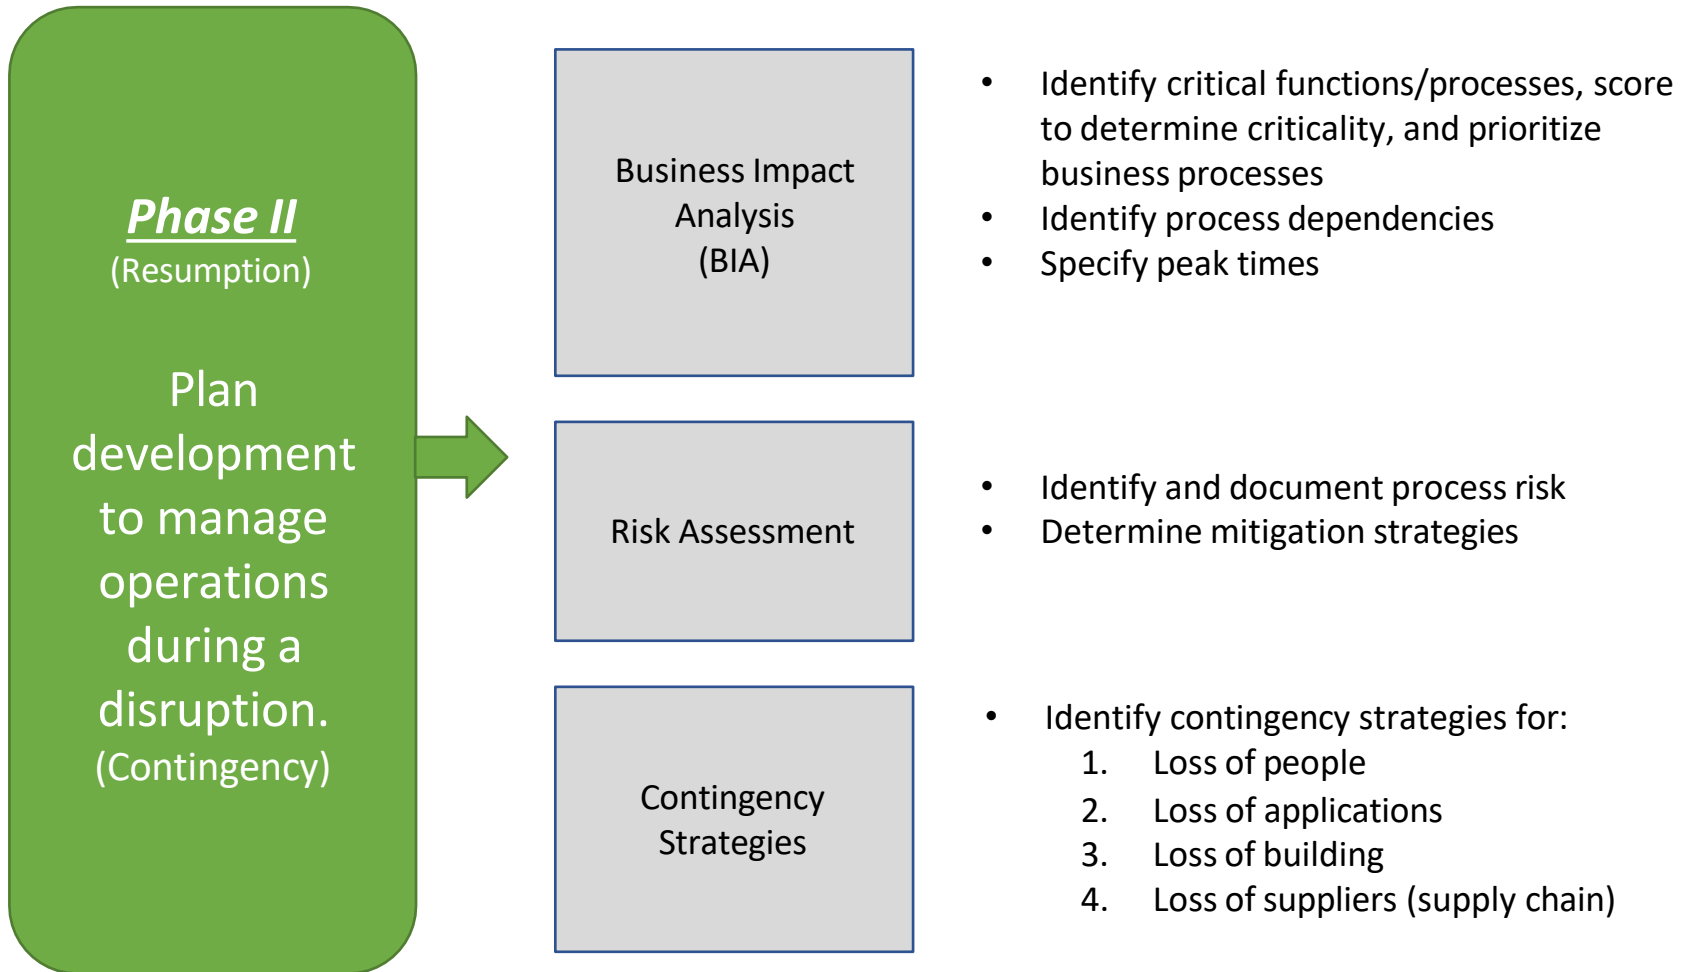

# BCP Requirements – 3 Major Development Phases

# BCP Requirements – Phase I Details

# BCP Requirements – Phase II Details

# BCP Requirements – Phase III Details

**Phase III**  
(Restoration)

Plan development to identify requirements & restore operations back to the (“new”) normal.

Asset Identification and Dependency Mapping

Recovery

Maintenance & Exercise BCP Requirements

- Assets needed to resume each process to acceptable level of service
  - Workstations
  - Telecom
  - Hardware & software equipment
  - Vital records
- Dependent IT applications/services
  - Identify the amount of time within which information must be restored before an adverse effect
- Document process for returning to “new normal”
- Plan maturity model and objectives
- Maintenance cycle requirement
- Exercise cycle, options, and objectives
- Metrics

# BCP Requirements- Plan Components

1. Executive Summary
2. Business Impact Analysis (BIA)
  - a. General Information
  - b. Plan Owner
  - c. Responsibility description for which the plan covers
  - d. Name of critical activity / function
  - e. Recovery Time Objectives (RTOs)
  - f. Recovery Point Objectives (RPOs)
  - g. Service Level Agreements (SLAs)
  - h. Peak period
  - i. Headcount (BAU vs Critical Need)
3. Risk and Impact Assessments
  - a. Financial
  - b. Service
  - c. Reputational
  - d. Regulatory
  - e. Legal
4. Dependencies
  - a. Application/systems
  - b. Facility
  - c. People
  - d. Supplier
5. Recovery Requirements
6. Risks
7. Continuity Strategies
  - a. Loss of building
  - b. Loss of people
  - c. Loss of IT
  - d. Loss of supplier
8. Supporting Documentation
9. Contact List

# RACI Chart

	Create/Develop a Quality Business Continuity Plan (BCP)							
	BCM Office	BIA	Risk Assessment	BC Strategies	Dependencies Identification	Train Team	Review & Update BCP	Test (Exercise) BCP
Unit Leader	I	A	A	A	A	A	A	A
Unit Business Continuity Representative (BCR)	R	R	R	R	AR	AR	AR	AR
Business Continuity Management Office	A	C	C	C	C	C	C	C
BCM Steering Committee	C	I	I	C	C	C	C	C

RACI Chart	
<b>R</b> Responsible	This team member does the work to complete the task. Every task needs at least one Responsible party, but it's okay to assign more
<b>A</b> Accountable	This person delegates work and is the last one to review the task or deliverable before it's deemed complete.
<b>C</b> Consulted	Every deliverable is strengthened by review and consultation from more than one team member. Consulted parties are typically the people who provide input based on either how it will impact their future project work or their domain of expertise on the deliverable itself.
<b>I</b> Informed	These team members simply need to be kept in the loop on project progress, rather than roped into the details of every deliverable
